

Description and Marking diagram for Trakehners Australia Inc Registration

Please be as accurate as possible. The diagram is intended for use on the registration papers.

Horse identification and traceability is increasingly important, particularly in the case of loss or theft, and of course to assure purchasers that they are acquiring the horse described.

For more detail and accuracy, we strongly advise you refer to the FEI guidelines for visually identifying the horse Separate pdf link here:

https://inside.fei.org/system/files/ID_of_horses_2014.pdf

DESCRIPTION OF HORSE:

Head:	
Foreleg left:	
Foreleg right:	
Hindleg left:	
Hindleg right:	
Body	
Markings:	
Brand:	

DIAGRAM OF MARKINGS:

Must be detailed enough to positively identify the horse in future.

- All markings (except white markings) are to be shown in BLACK.
- **White markings must be shown in RED.** If no white markings, you must state “no white”
- Whorls on the head and neck must be marked with X.
- Other whorls on body should be recorded for accuracy, and **MUST** be recorded if there are no white markings or other distinguishing marks.
- Other distinguishing marks, - scars, prophet’s thumb, etc should be shown.
- Microchip implant location must be shown with an arrow.
